This is about the survey "People in Germany".

This scientific study is being conducted jointly by Prof. Dr. Achim Goerres from the University of Duisburg-Essen, by Privatdozent Dr. Dennis Spies from the University of Cologne and by the private research institute infas.

The survey is about very different topics. For example, we would like to find out what issues people are concerned about in 2017 and what is important to them. We are particularly interested in your political opinion.

The interview lasts about 60 minutes.

As a thank you for your participation, you will receive 20 euros from us directly after the interview.

infas guarantees that all your information will be treated strictly confidentially. Your information will be evaluated anonymously, i.e. separately from your address.

Participation in the survey is of course voluntary. However, we are very happy if you tell us your opinion! It is very important that as many people as possible participate. This is the only way to get meaningful results.

May I now begin the interview?

INT: Do not read out specifications!

1: Yes
7: No

PROG: For code 7: Abort with farewell.

I will now give you the laptop. You read and answer the questions there yourself.

A short explanation on how to use the questionnaire:

The questions are always written in black. For some questions, additional instructions are written in green.

For each question, there are either given answer options from which you choose one. Or there is an answer field for you to enter the answer.
In the case of given answer options, you can either select the appropriate answer option from the list with the mouse or enter the appropriate number in the input field. If there is only one answer field

(e.g. for entering a number), enter your answer there with the keyboard. Use the Enter key to confirm an answer and move on to the next questions.

If you have questions about how to use the questionnaire, ask me at any time and I will be happy to help you. For example, talk to me if you want to change an answer you have entered.

For a few questions, there is a note telling you to look at a map or a list. Please tell me about these questions. I will then show you the correct card or list.

After about an hour, you are told to return the laptop to me. Please then hand the laptop back to me.

Do you have any questions?

INTERVIEWER: Please answer questions about the operation. If necessary, help with entering the answers to the first questions and show how to answer the questions (with keyboard or mouse). In the following interview, please pay attention to whether the person has questions and clarify them. Present lists or cards at the appropriate places.
